**Net income vs expenses for month of May was \$(-10,566)
(includes outreach due for April and May)**

**Year to date income vs expenses as of June 1st, 2023 is \$(-27,680)
(includes outreach due for April and May)**

3 year comparison through May

	2021	2022	2023
Income	\$350,347	\$353,843	\$353,859
Expense	\$334,662	\$355,135	\$381,539
Difference	\$15,685	-\$1,292	-\$27,680

Unfortunately, we had another poor giving month in May, leaving us now \$27,680 behind for the year. Our giving so far for the year is basically the same as last year and has not kept up with this year's increases due to inflation and giving staff the recommended COLA. The short fall has not been consistent each month. January, March, and April we covered our ministry expenses but for some reason offerings were low in February and May. Look for more information regarding our financial stewardship in the coming weeks. However, one thing that needs reiterated, please remember that our estate gifts from former members CANNOT be used for our budgeted expenses.
